MEMORANDUM FOR: Director of Training

SUBJECT : Intelligence School Weekly Report No. 36
5 through 11 September 1958

25X1
25X1

1. We are under pressure from OC to offer Instructional Techniques training at [] and for Headquarters' personnel. Since [] will not be available and the requirement is fairly urgent, we are working at other ways of handling the course. Discussion with C/A&E concerning [] indicates that no help will be available soon from this source; we are now exploring the possibility of assigning [] is fairly well qualified and is interested, and can do a good job, but the assignment will increase the shortage of personnel in the IO Faculty.

2. An action has been cut for [] and we expect to release him about 1 November.

3. There are no further developments with respect to the rotation prospects for Messrs. []
